

What is the Bible Wheel? The *Bible Wheel* is comprehensive website that provides [gematria](#) values within the context of the divine structure of the bible, which unlocks deep hidden secrets that enhance spiritual understanding. This site was discovered by [The Promise Studies](#) in the fall of **2013** while seeking the spiritual significance for the factors of "[1335](#);" **3 x 5 x "89,"** which turned out to be related to the [Holy Spirit!](#) Although the author now vigorously recants two decades of profound revelations; in conjunction with [the bible timeline](#), the Promise watch has objectively harmonized this work as a reliable study tool on footing with the Strong's Concordance in prophetic understanding. Therefore, links to the site are upheld as [credible](#). Provided is an excerpt of the author's original explanation for optimal understanding.

The Bible Wheel is a circular presentation of the Bible that I discovered by rolling up the traditional list of the sixty-six books like a scroll on a spindle wheel of twenty-two spokes, corresponding to the twenty-two letters of the Hebrew alphabet. The order of the Hebrew alphabet is established in the alphabetically structured passages of the Old Testament, most notably Psalm 119 that praises God's Word from Aleph to Tav, from beginning to end. This exemplifies how everything in the Bible Wheel is derived from Scripture and Scripture alone.

❖ A Unified View from a Higher Dimension

[Bible Wheel lessons](#)
[On YouTube](#)

On May 12, 1995, I completed the first draft of the Bible Wheel shown above. I placed the Hebrew Letters on the outer rim so there would be room to write their names and listed the numerical position of each Book below its name for easy reference. The structure consists of a circular matrix of sixty-six Cells on a Wheel of twenty-two Spokes. The sixty-six Cells form three wheels within the Wheel called Cycles. Each Cycle spans a continuous sequence of twenty-two books as follows:

The Three Cycles of the Bible Wheel

- ❖ **Cycle 1**, Books 1 to 22: Genesis to the Song of Songs
- ❖ **Cycle 2**, Books 23 to 44: Isaiah to Acts
- ❖ **Cycle 3**, Books 45 to 66: Romans to Revelation

With the completion of the Bible Wheel, we now have a fully unified view of the whole Bible as a symmetrical, mathematically structured two-dimensional object. The increase from the traditional one-dimensional list of books to the two-dimensional Bible Wheel immediately reveals a host of unanticipated correlations between the three books on each spoke with each other and the corresponding Hebrew Letter.

On May 14, 1999, after four years of fruitful study of the correlations between the books and Hebrew letter on each Spoke, I noticed that the three books on the first Spoke were also the first books of three primary divisions of Scripture:

| Spoke 1 - Aleph |
|--|
| ❖ Cycle 1, GENESIS : First Book of the LAW |
| ❖ Cycle 2, ISAIAH : First Book of the PROPHETS |
| ❖ Cycle 3, ROMANS : First Book of the EPISTLES |

This "coincidence" prompted me to examine the traditional groupings of the books. I discovered that Christian scholars have noted from ancient times that the books of the Bible naturally fall into distinctive categories that form a pattern on the Bible Wheel. The pattern begins with the first five books known variously as the Torah, the Law of Moses, or the Pentateuch. These five books are colored dark purple in the diagram above (Genesis to Deuteronomy). They are followed by twelve historical books from Joshua to Esther (dark red). The next five books are known as the Wisdom Books (dark purple). This completes the first Cycle of twenty-two books. The next Cycle begins with Isaiah, the first of the five Major Prophets (light purple). These are followed by the twelve books of the Minor Prophets (light red). This completes the Old Testament. Next comes the five books of New Testament History (Gospels and Acts, light purple) and the whole pattern is completed with twenty-two Epistles that occupy Cycle 3 (blue).

| CYCLE 1 | CYCLE 2 | CYCLE 3 |
|--|---|--|
| <ul style="list-style-type: none"> ❖ 5 Books: Torah (Law) ❖ 12 Books: OT History ❖ 5 Books: Wisdom | <ul style="list-style-type: none"> ❖ 5 Books: Major Prophets ❖ 12 Books: Minor Prophets ❖ 5 Books: NT History | <ul style="list-style-type: none"> ❖ 22 Books: NT Epistles |

The Canon Wheel - Sevenfold Symmetric Perfection

The image above is called the Canon Wheel. It displays the seven canonical divisions to reveal a deep, intrinsic symmetry in the structure of the Bible. The symmetry embodies three symbolic elements - the Circle, the Number Seven, and the Alphabet. Each of these symbols conveys different aspects of the ideas of unity, perfection, and completeness. The Number Seven is the premier Biblical symbol of perfection and completeness. The Circle encompassing the entire Bible is a universal archetype of unity and wholeness. The correspondence of each book with a letter of the Hebrew alphabet is complete from Aleph to Tav (the first and last letters of the Hebrew alphabet). This echoes the symbolic meaning of the Alpha Omega that defines the nature of Deity:

I am Alpha and Omega, the beginning and the ending, saith the Lord, which is, and which was, and which is to come, the Almighty.

Revelation 1:8

With the advent of the Canon Wheel, we now have an overwhelming convergence of distinct, independent, universal, and Biblical symbols representing different aspects of the unity, perfection, and completeness of the Holy Bible. They synergistically interact to amplify the symbolic meaning each holds individually so that the significance of the whole is immeasurably greater than the sum of its individual parts. And yet for all this, we have only just begun to discover the wonder revealed by the simple act of "**rolling up the Bible like a scroll.**"

5.0 out of 5 stars **great !**, November 12, 2014

By [James P. Brownlow](#) - [See all my reviews](#)
[\(REAL NAME\)](#)

This review is from: The Bible Wheel: A Revelation of the Divine Unity of the Holy Bible (Hardcover)

This is, I think, the Ezekiel Wheel. It is the Bible Scroll all 66 books of scripture, in order, formed into three "wheels", each wheel inside the other and all are surrounded by the 22 letters of the Hebrew alphabet. Thus the first Hebrew Letter "A" is on a "spoke" that contains three Bible books, Genesis, Isaiah, and Romans. So Genesis, first book, Isaiah, first Prophet, Romans, first letter; they do tie together. Likewise the vocabulary used in that spoke. The phrase, "I am the first and the last" occurs 7 times total in scripture, 4 times in Revelation, the last spoke, and three times in Isaiah, in the FIRST spoke. The last "spoke" the letter "Tav" is Song of Solomon, Acts, and Revelation. These spokes, all 22, are incredibly designed although not so apparent at first glance. .This is an amazing book

This review is from: The Bible Wheel: A Revelation of the Divine Unity of the Holy Bible (Hardcover)

The Bible Wheel teaches me that there is a deep connection between the Twenty-Two Letters of the Hebrew Alphabet and the whole Bible. It is astonishing to know that 39 books of the old testament and 27 books of the new testament reveal and are concealed in each other. We can discover the concealed connections and their biblical meanings by The Bible Wheel. Let us start our spiritual journey to find out His perfect Love.

This review is from: The Bible Wheel: A Revelation of the Divine Unity of the Holy Bible (Hardcover)

Lots of good info. Don't have to agree with everything, but it actually goes deeper than what is written. Study.

In perfect alignment

By ANDREA JAHNICK
Journal Register Co./The Register-Guard

It's a simple idea: Take the Bible, roll it up like a scroll, see how all the books align. Like spokes on a wheel, the books of the Bible line up "in a surprisingly meaningful way," local author Richard Ansel McGough claims. To him, the written Word takes the shape of a tri-radial halo.

It's an image he weaves around his work, inscribed on a circular pendant. It's an image his wife, Rose, fashioned into a stained-glass window for their West Valley home. And it's the image that graces the cover of McGough's self-published book.

The design is based on McGough's "Bible Wheel" theory, in which Scriptures connect in a "beautiful, symmetrical" way, proving — he says — "God designed the Bible."

"The pattern is infinitely deep,"

A local author says the Scriptures connect in a 'beautiful, symmetrical' way

says 47-year-old McGough, a member of Wiley Heights Covenant Church. "The more details you know about the Bible, the more clear the patterns become."

"We end up with a perfect structure," he says. "You can't just put a book in; you can't take a book out. The perfect symmetry of that shows the perfect symmetry of its author, God. Once you see it, it's obvious."

McGough, a mathematician, physics and molecular biologist, began noticing the patterns about 10 years ago when he was studying the Hebrew alphabet. He found that books like, say, version have key words and key letters that line up with the Hebrew alphabet, among other parallels.

His book, "The Bible Wheel: A Revelation

of the Divine Unity of the Holy Bible," presents his theory in 412 pages of detail. It represents eight years of research and another two years of writing.

If it's theory has brother-in-law, Rubin Collins, a professor of philosophy at Messiah College in Pennsylvania, taken seriously.

"The most obvious patterns that Richard has discovered by rolling the Bible into a circle are both very improbable and special, and thus strongly indicate that something more than chance is at play," says Collins, 43. "For example, the pattern of the divisions of the books of the Bible — what Richard calls the caisson wheel — bears a mathematically simple pattern, exhibiting both bilateral and radial symmetry. This pattern also has the form of

the tri-radial halo of traditional Christian iconography, and thus is special in the second way of being particularly meaningful."

"The probability of the divisions falling into a pattern of this simplicity can be easily calculated, and is staggeringly small, less than one in 400,000," Collins says. "When one adds the fact that the pattern is meaningful, along with the other obvious patterns he has discovered, the probability is much, much smaller."

McGough said Johnson, a company that specializes in school yearbooks but also does commercial printing, to publish the book — his first — last March. So far, he has sold nearly 300 of his \$200 copies. The hardbound book costs \$27.95. McGough gives discounts for sales of multiple copies.

It's divided into three parts: "The Divine Design of the Bible Wheel," "Synopsis of the Twenty-Five Spokes" and "The Divine Seal and Cognos of the Holy Bible."

"The Bible is a single, unified, completely integrated book," says McGough, who graduated from Washington State University with math and physics degrees in 1985. "That is a sign of divine design, that God did it."
